Do small changes make a big difference?

*Absolutely! See how the following small changes in your **lifestyle** can add up to a healthier retirement:*

Think ahead. Take action now.

- ✓ **Aim for a 10% savings rate.** Begin by contributing enough to receive your employer's matching contribution.
- ✓ **Get on the escalator!** Commit to modest but regular increases in your contribution rate. Sign up for the auto-increase service at TA-retirement.com.

'Calculated with the following assumptions: 10, 20, and 30-year periods based on monthly contributions, compounded at 6.3%, with an inflation rate of 3%. This example is hypothetical and does not represent the performance of any fund. Regular investing does not guarantee a profit or protect against a loss in a declining market. Past performance does not guarantee future results. Initial tax savings on contributions and earnings are deferred until distribution.'

You should evaluate your ability to continue the auto-increase service in the event of a prolonged market decline, unexpected expenses, or an unforeseeable emergency.
